VÅRT SORTIMENT OUR ASSORTMENT UNSER SORTIMENT

VÄLKOMMEN

I den här katalogen har vi satt samman en kollektion av belysning för vår- och sommarsäsongen. Här hittar du produkter för såväl inomhus som utomhus, för vardagsdekorationer eller fest, samt vårt breda utbud av solcellsdriven belysning.

WELCOME

In this catalogue we have collected an assortment of lighting products for the spring and summer season. Here you will find products for both indoor and outdoor, for everyday decoration or party, as well as our broad range of solar energy lighting.

WILLKOMMEN

Dieser Katalog beinhaltet ein Sortiment, speziell für die Frühlings- / und Sommersaison. Hier finden Sie Produkte für den Innen-/und Außenbereich, Ganzjahres-/und Partydekoration, sowie unsere große Auswahl an Solarartikeln.

VÅRA SYMBOLER OUR SYMBOLS UNSERE SYMBOLE

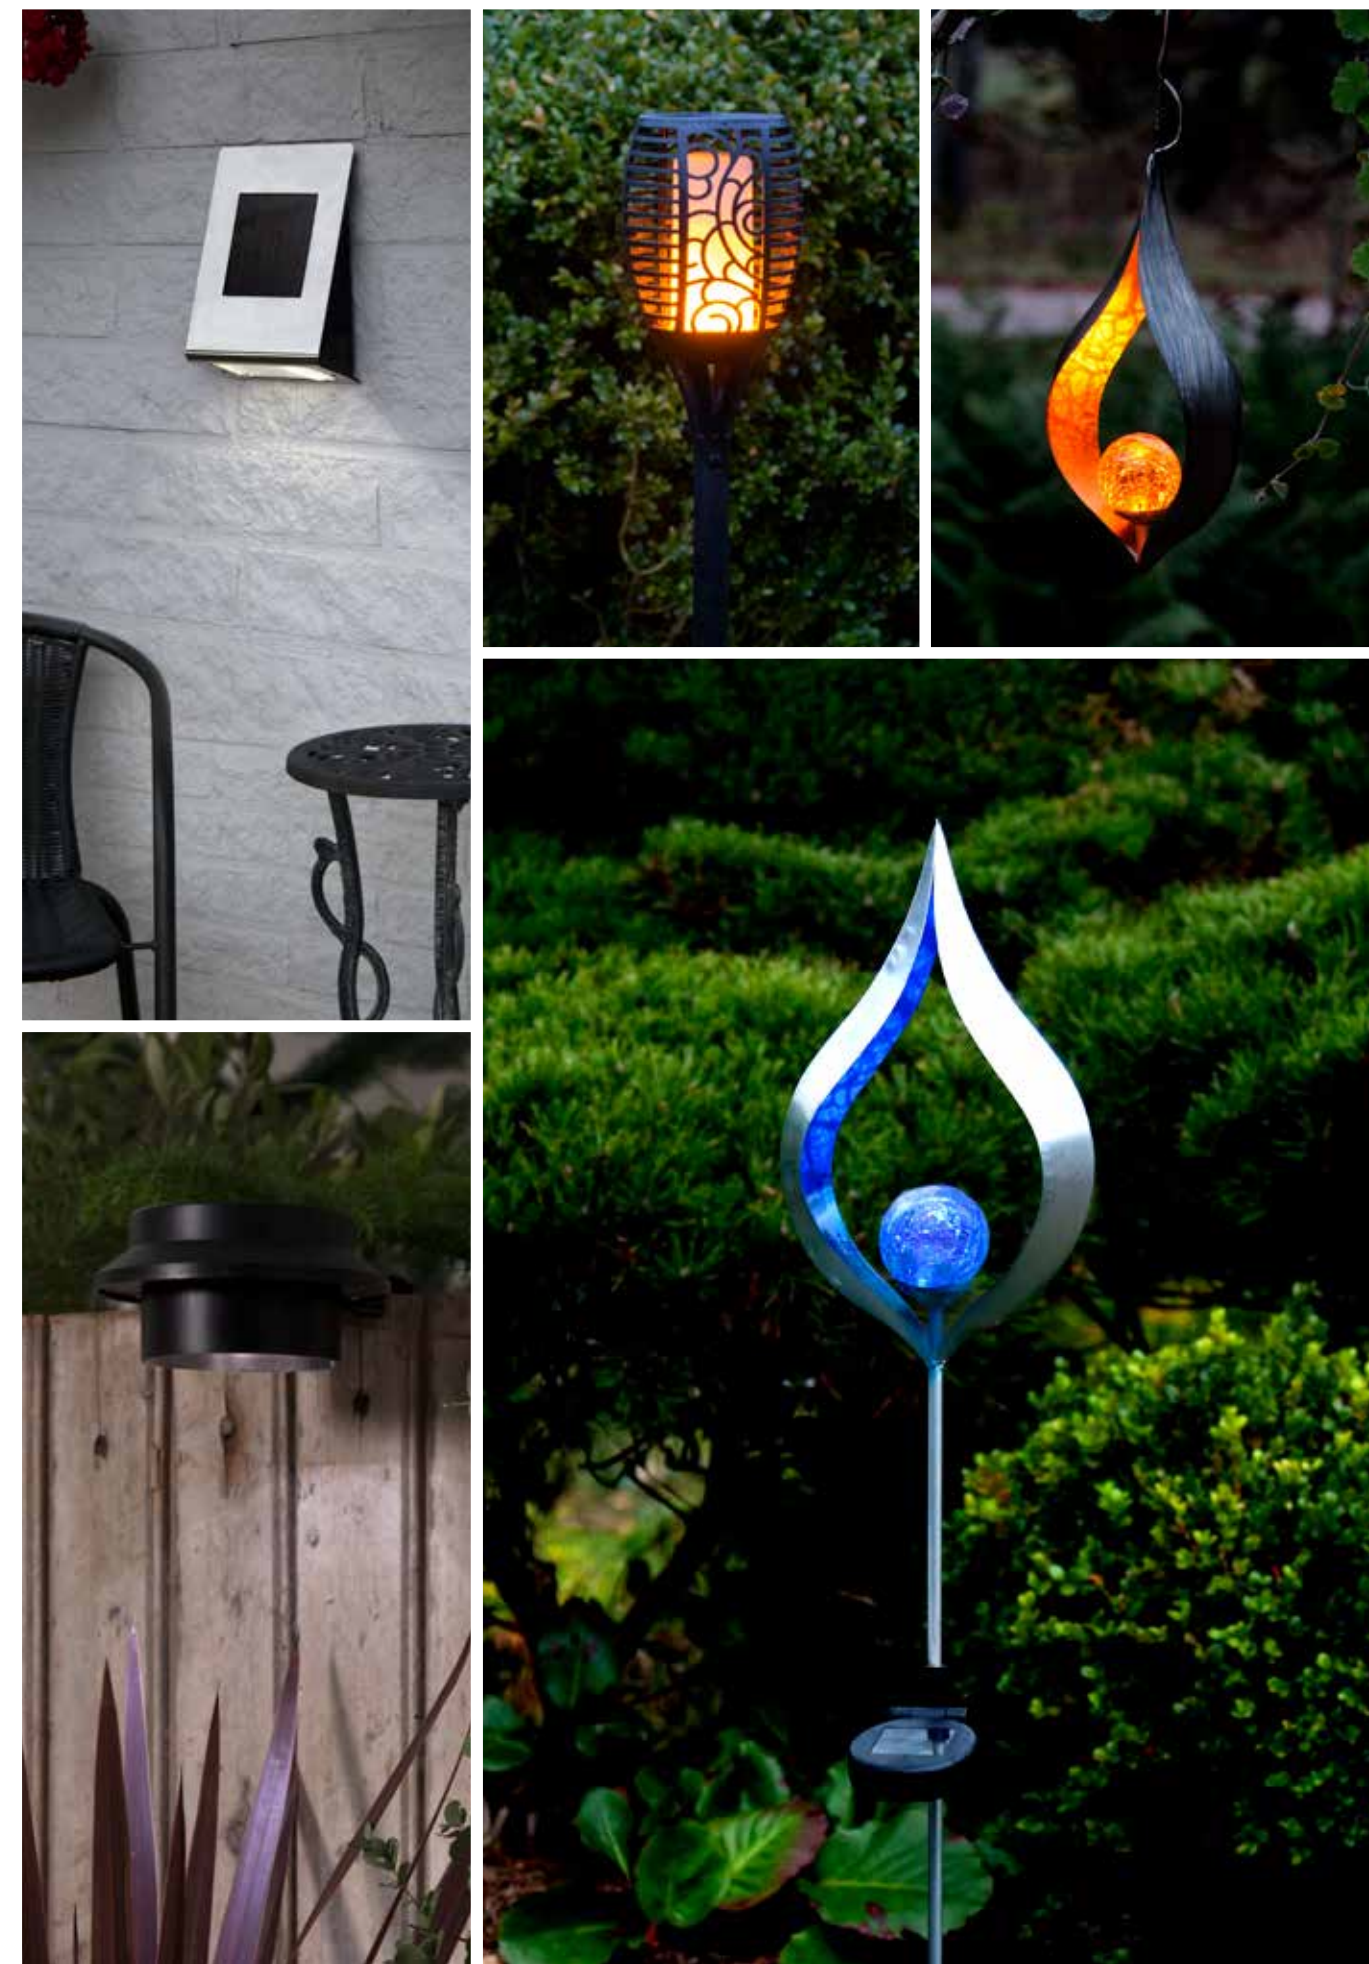

© Star Trading AB 2018

S: Vi reserverar oss för smärre ändringar i produkterna. Angivna batteritider är grova uppskattningar. Faktisk tid beror till stor del på vilka batterier som används samt omgivningstemperatur.
 GB: We reserve the right to make small changes in the products. The stated battery life indexes are rough approximations. Actual life index will depend heavily on what type of batteries are used as well as the surrounding temperature.
 D: Geringfügige Änderungen aller Artikel bleiben vorbehalten. Die angegebene Lebensdauer der Batterien sind grobe Schätzungen, die im Wesentlichen vom Batterie-typ und der Umgebungstemperatur abhängig sind.

SOLAR ENERGY

PRAKTISK & MILJÖVÄNLIG BELYSNING

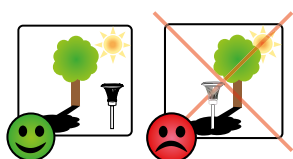

Miljövänligt: All energi till den energisnåla LED-belysningen kommer från solen.

Enkelt: Fungerar där ingen el finns, inga kablar behövs.

Praktiskt: Den inbyggda ljussensorn tänds och släcker ljuset automatiskt.

ENERGI FRÅN SOLEN

I solljus laddar solpanelen upp det uppladdningsbara batteriet. När det blir mörkt tänds ljuset automatiskt tack vare den inbyggda ljussensorn. Lampan släcks igen när det blir ljus eller då batteriet har laddat ur.

INSTRUKTIONER

Placera produkterna så att de har tillgång till solljus under dagen och inte belyses av andra ljuskällor under natten. Produkterna själva tål att stå ute hela året, men under vintermånaderna kommer funktionen att försämrats och produkten riskerar att skadas om temperaturen blir för låg. Eftersom de är så enkla att placera ut och flytta väljer många att vinterförvara sin solcells-belysning och sätta ut den igen till våren.

FÖRLÄNG LIVSLÄNGDEN MED UTBYTBARA BATTERIER

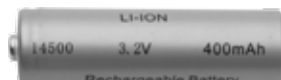

Produktens livslängd begränsas inte i första hand av vare sig lysdioden eller solpanelen utan av det uppladdningsbara batteriet som endast klarar ett visst antal laddcykler. Genom att byta ut batteriet får produkten mycket längre livslängd. Vi rekommenderar att byta batteri en gång per år.

PRACTICAL & ENVIRONMENTALLY FRIENDLY LIGHTING

Environmentally Friendly: All energy to the efficient LED lights is provided by the sun.

Easy: Works without access to the power grid, no cables needed.

Practical: The built-in light sensor turns the lights on and off automatically.

ENERGY FROM THE SUN

In sunlight, the solar panel charges the rechargeable battery. When it gets dark, the built-in light sensor will automatically turn on the lights. The lights go out again when the sun rises or when the battery is depleted.

INSTRUCTIONS

Place the products so that they have access to sunlight during the day and are not exposed to other light sources during the night. The products themselves can remain outside the whole year, but they will not perform as well during the winter months and risk getting damaged if the temperature gets too low. Since they are so easy to install and move, many chose to store their solar lighting during the winter and take it out again in the spring.

PRAKTISCHE & UMWELTFREUNDLICHE

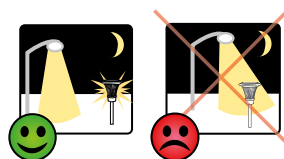

Umweltfreundlich: Der Strom für die effizienten LED's wird von der Sonne produziert.

Einfach: Funktioniert ohne Stromanschluss, keine Kabel benötigt.

Praktisch: Der eingebaute Lichtsensor schaltet die Lichter automatisch an und aus.

SONNENENERGIE

Im Sonnenlicht lädt das Solarpanel die integrierten Akkus. Sobald es dunkel wird schaltet der eingebaute Lichtsensor die Lichter an. Die Lichter schalten sich wieder aus, sobald es hell wird, oder die Batterien erschöpft sind.

ANLEITUNG

Platzieren Sie den Artikel so, dass er dem direkten Sonnenlicht bei Tag, und keiner anderen Lichtquelle bei Nacht ausgesetzt ist. Die Produkte können das gesamte Jahr im Außenbereich eingesetzt werden, jedoch ist die Funktionalität in den Wintermonaten etwas eingeschränkt und es besteht die Gefahr einer Beschädigung bei sehr niedrigen Temperaturen. Da Sie so einfach zu installieren und zu bewegen sind, entscheiden sich viele dafür die Solarartikel während des Winters zu lagern und im Frühjahr wieder zu benutzen.

EXTEND PRODUCT LIFE SPAN WITH REPLACEABLE BATTERIES

The product life length is mainly limited not by the LED or the solar panel, but by the rechargeable battery which only lasts so many charge cycles. By replacing the battery you can extend the life of your product. We recommend changing batteries once a year.

VERLÄNGERTE LEBENSDAUER DES PRODUKTS DURCH AUSTAUSCHBARE BATTERIEN

Die Lebensdauer des Produktes ist nicht durch die Lebenserwartung der LEDs oder des Solarpanels, sondern viel mehr durch die begrenzten Ladevorgänge der eingebauten Akkus, eingeschränkt. Durch einen Austausch dieser Akkus kann die Lebensdauer des gesamten Produktes verlängert werden. Wir empfehlen die Batterien ein Mal pro Jahr zu wechseln.
