GARDEN LIGHT

Skapa en härlig atmosfär med vårt trendiga och tidsenliga GARDEN LIGHT sortiment. Bords- och golvarmaturer med E27-sockel, som är avsedda för att användas på uteplatser, altaner och balkonger men som även passar för inomhusbruk. Lampskärmar som kan mixas och matchas med våra utomhusupphäng och stora utbud av ljuskällor.

Create a lovely atmosphere with our trendy and contemporary garden light assortment. Table- and floor fixtures with E27 base for your patio, terrace or balcony, but also suitable for indoor use. Our lamp shades can be mixed and matched with our outdoor cordsets and wide range of bulbs.

Kreieren Sie eine schöne Atmosphäre mit unserem trendigen und modernen Sortiment an Gartenleuchten. Tisch- und Standversionen mit E27-Sockel für Ihre Terrasse, Ihren Balkon oder auch für den Innenbereich geeignet. Unsere Lampenschirme können mit unseren Außenabhängungen und einer großen Auswahl an LED-Leuchtmitteln kombiniert werden.

TWILIGHTS

Med våra populära Twilightsprodukter kan du välja mellan fast eller varierande sken, vitt eller färgat. Använd med uppladdningsbara batterier eller med transformator (båda medföljer). För att ladda batterierna, använd bipackad transformator. När batterierna är fulladdade lyser produkten i upp till 6-8 timmar.

You can choose colour changing RGB or steady colour/white. Use with rechargeable batteries or with low voltage transformer (both are included). To charge the batteries, use the included transformer. When the batteries are fully charged the products light up for 6-8 hours.

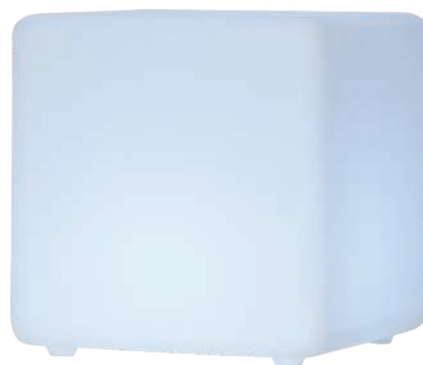

Wählen Sie zwischen RGB-Farbwechsel oder einer konstanten Lichtfarbe bzw. weiss. Verwendung mit wiederaufladbaren Batterien oder mit Niederspannungstransformator (beide im Lieferumfang enthalten). Verwenden Sie zum Laden der Batterien, den im Lieferumfang enthaltenen, Transformator. Sind die Akkus voll aufgeladen, leuchten die Produkte bis zu 6-8 Stunden lang.

KNUTE

lys upp trädgården med våra lampskärmar KNUTE. Gjorda av konstrotting för att tåla en utomhusmiljö. Passar till våra utomhusupphäng med E27-sockel. Finns i två storlekar och tre färger. Använd som hängande armatur eller varför inte som golvmödel. Bara fantasin sätter gränser. Sätt din egen prägel på KNUTE genom att välja olika ljuskällor.

Light up the garden with our lampshades Knute. Made from artificial rattan to withstand an outdoor environment, it fits our outdoor cordsets with E27 base. Knute is available in two sizes and three colours. Use it as a hanging luminaire, or why not as a floor model, only your imagination sets the limits. Put your own touch on Knute by choosing different light sources.

Beleuchten Sie Ihren Garten mit unseren Lampenschirmen "Knute". Hergestellt aus witterungsbeständigem, künstlichem Rattan, passen sie zu unseren Outdoor-Kabeln mit E27-Fassung. "Knute" ist in zwei Größen und drei Farben erhältlich. Verwenden Sie "Knute" als Hängeleuchte oder warum nicht auch als Standmodell. Der Phantasie sind hier keine Grenzen gesetzt. Geben Sie der Leuchte, durch die Auswahl eines eigenen Leuchtmittels, Ihre eigene persönliche Note.

TRASSEL

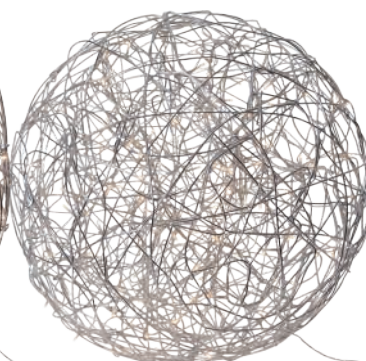

Vår exklusiva serie TRASSEL med vackert varmvitt sken passar lika bra ute som inne. Produkterna är försedda med IP44 klassad transformator. Om du vill använda TRASSEL som hängande armatur förstärk upphängningen med en vajer samt vajerlås.

Our exclusive series Trassel with beautiful warm white shine fits just as well outside as inside. The products are equipped with IP44-rated transformer. If you want to use Trassel as a hanging fixture, the suspension must be reinforced with a wire and wire lock.

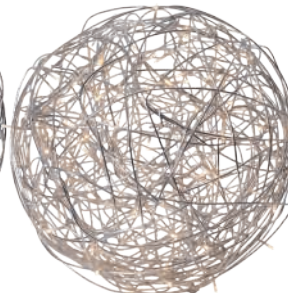

Unsere exklusive „Trassel“-Serie mit angenehm warmweißem Licht, eignet sich perfekt sowohl für den Außen- / als auch für den Innenbereich. Alle Produkte sind mit einem IP44-Transformator ausgestattet. Wenn Sie die „Trassel“ aufhängen möchten empfehlen wir ein Drahtseil mit Befestigungsschelle zu benutzen.

OUTDOOR LIGHTING

lys upp tillvaron med våra partyslingor! I vår serie Outdoor lighting har vi samlat både slingor med tillbehör samt lampor som passar perfekt för att skapa feststämning eller julmys. I vårt stora sortiment finns opala, klara eller färgade lampor – i glas eller okrossbara som har ett hölje av polycarbonat.

In our Outdoor lighting series we have assembled both light chains with accessories and bulbs that are perfect for creating party or Christmas atmosphere. The range includes lamps with glass or unbreakable polycarbonate body – choose between opaque, clear or coloured ones.

In unserer Outdoor lighting Serie haben wir Lichterketten mit Zubehör und Leuchtmitteln für Party und Weihnachten kombiniert. Sie enthält Leuchtmittel mit Glas oder unzerbrechlichem Polycarbonat. Wählen Sie zwischen, opalen, klaren oder farbigen Abdeckungen.

CIRCUS

Med våra CIRCUS ljusslingor fixar du lätt en härlig feststämning eller en fin mysbelysning. Slingorna har gummikabel och IP44-klassad transformator för att passa i utomhusmiljö men kan även användas inomhus. Välj mellan olika modeller, storlek på lampan, LED filament eller LED dewdrop.

Our Circus light chains provide for a fun party atmosphere or a delightful cosy glow in your garden or home. The light chains have rubber cables and an IP44-rated transformer suitable for both outdoor and indoor environment. Choose between different models, sizes of bulbs, LED filament or LED dewdrop.

Unsere Lichterketten der Serie "Circus" sorgen für eine stimmungsvolle Partyatmosphäre oder ein gemütliches Leuchten in Ihrem Garten oder Zuhause. Die Lichterketten verfügen über Gummikabel und einen Transformator der Schutzart IP44, der sowohl für den Außen- als auch für den Innenbereich geeignet ist. Wählen Sie zwischen verschiedenen Modellen, Lampengrößen, LED-Filamenten oder LED-Tautropfen.

SYSTEM 24

System 24 är systemet för husägaren som vill göra det lilla extra. Stamkabeln ger dig större flexibilitet och fler kopplingsmöjligheter. Gummikabel av hög kvalitet och kombinationen av 24V strömkälla och LED-teknik gör systemet säkert, hållbart och extremt energieffektivt. Med vårt bredaste sortiment av produkter och tillbehör är System 24 ett komplett system för trädgårds-, party- och julbelysning.

System 24 is the system for the home-owner who wants to do more. The stem cable allows for greater flexibility when connecting your system. The high quality rubber cables together with the combination of low voltage and LED technology ensures a safe, long lasting and extremely energy efficient system. With our broadest range of products and accessories System 24 is a complete garden, party and Christmas light system.

System 24 ist für Kunden die mehr aus Ihrem Garten oder Balkon machen möchten. Das Stem - Kabel erlaubt Ihnen eine höhere Flexibilität bei der Dekoration. Die Gummikabel zusammen mit der Kombination von Niedervolt - /und LED - Technik machen das System sicher, robust und sehr energieeffizient. Mit der größten Auswahl von Produkten und Zubehör ist System 24 ein komplettes Beleuchtungs-system für Garten, Party und Weihnachten.

Gives a bright light and has a long life span

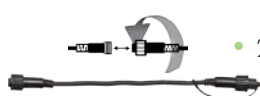

SYSTEM LED

System LED är vårt premiumsystem för större, hållbara dekorationer. Livslängden är så lång som 50 000 brinntimmar och det ger ett mycket kraftigt ljussken. Sortimentet innefattar stora produkter i olika färger vilket gör att System LED är systemet för den som verkligen vill få uppmärksamhet. Ändå är det lika konsumentvänligt som våra andra system.

System LED is our premium system for larger, durable decorations. The life length is as much as 50 000 hours and it gives a very bright light. The range includes large products in different colours, making System LED the system of choice for anyone who wants to be noticed. It is still just as consumer friendly as all our other system.

System LED ist ein erstklassiges System für eine lang anhaltende Beleuchtung. Die Lebensdauer beträgt ca. 50.000 Stunden und besticht durch einen auffällig hellen Farbton. Die Produktpalette beinhaltet große Produkte in verschiedenen Farben. Dies macht System LED für jeden interessant, der Aufmerksamkeit erregen möchte. Es ist trotzdem genau so benutzerfreundlich wie alle unsere Systeme.

SOLAR ENERGY

LIGHT UP & DECORATE WITH SOLAR ENERGY PRODUCTS

PRAKTISK & MILJÖVÄNLIG BELYSNING

Miljövänligt: All energi till den energisnåla LED-belysningen kommer från solen.

Enkelt: Fungerar där ingen el finns, inga kablar behövs.

Praktiskt: Den inbyggda ljussensorn tändar och släcker ljuset automatiskt.

PRACTICAL & ENVIRONMENTALLY FRIENDLY LIGHTING

Environmentally Friendly: All energy to the efficient LED lights is provided by the sun.

Easy: Works without access to the power grid, no cables needed.

Practical: The built-in light sensor turns the lights on and off automatically.

PRAKTISCHE & UMWELTFREUNDLICHE

Umweltfreundlich: Der Strom für die effizienten LED's wird von der Sonne produziert.

Einfach: Funktioniert ohne Stromanschluss, keine Kabel benötigt.

Praktisch: Der eingebaute Lichtsensor schaltet die Lichter automatisch an und aus.

ENERGI FRÅN SOLEN

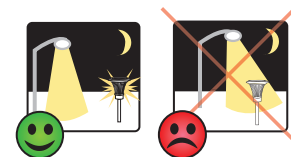

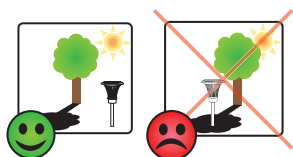

I solljus laddar solpanelen upp det uppladdningsbara batteriet. När det blir mörkt tänds ljuset automatiskt tack vare den inbyggda ljussensorn. Lampan släcks igen när det blir ljus eller då batteriet har laddat ur.

ENERGY FROM THE SUN

In sunlight, the solar panel charges the rechargeable battery. When it gets dark, the built-in light sensor will automatically turn on the lights. The lights go out again when the sun rises or when the battery is depleted.

SONNENENERGIE

Im Sonnenlicht lädt das Solarpanel die integrierten Akkus. Sobald es dunkel wird schaltet der eingebaute Lichtsensor die Lichter an. Die Lichter schalten sich wieder aus, sobald es hell wird, oder die Batterien erschöpft sind.

INSTRUKTIONER

Placera produkterna så att de har tillgång till solljus under dagen och inte belyses av andra ljuskällor under natten.

Produkterna själva tål att stå ute hela året, men under vintermånaderna kommer funktionen att försämrats och produkten riskerar att skadas om temperaturen blir för låg. Eftersom de är så enkla att placera ut och flytta väljer många att vinterförvara sin solcellsbelysning och sätta ut den igen till våren.

INSTRUCTIONS

Place the products so that they have access to sunlight during the day and are not exposed to other light sources during the night. The products themselves can remain outside the whole year, but they will not perform as well during the winter months and risk getting damaged if the temperature gets too low. Since they are so easy to install and move, many chose to store their solar lighting during the winter and take it out again in the spring.

ANLEITUNG

Platzieren Sie den Artikel so, dass er dem direkten Sonnenlicht bei Tag, und keiner anderen Lichtquelle bei Nacht ausgesetzt ist. Die Produkte können das gesamte Jahr im Außenbereich eingesetzt werden, jedoch ist die Funktionalität in den Wintermonaten etwas eingeschränkt und es besteht die Gefahr einer Beschädigung bei sehr niedrigen Temperaturen. Da Sie so einfach zu installieren und zu bewegen sind, entscheiden sich viele dafür die Solarartikel während des Winters zu lagern und im Frühjahr wieder zu benutzen.

FÖRLÄNG LIVSLÄNGDEN MED UTBYTBARA BATTERIER

Produktens livslängd begränsas inte i första hand av vare sig lysdioden eller solpanelen utan av det uppladdningsbara batteriet som endast klarar ett visst antal laddcykler. Genom att byta ut batteriet får produkten mycket längre livslängd. Vi rekommenderar att byta batteri en gång per år.

EXTEND PRODUCT LIFE SPAN WITH REPLACEABLE BATTERIES

The product life length is mainly limited not by the LED or the solar panel, but by the rechargeable battery which only lasts so many charge cycles. By replacing the battery you can extend the life of your product. We recommend changing batteries once a year.

VERLÄNGERTE LEBENSDAUER DES PRODUKTS DURCH AUSTAUSHBARE BATTERIEN

Die Lebensdauer des Produktes ist nicht durch die Lebenserwartung der LEDs oder des Solarpanels, sondern viel mehr durch die begrenzten Ladevorgänge der eingebauten Akkus, eingeschränkt. Durch einen Austausch dieser Akkus kann die Lebensdauer des gesamten Produktes verlängert werden. Wir empfehlen die Batterien ein Mal pro Jahr zu wechseln.

MIRROR
REFLECTION

SOLAR PATH & WALL LIGHT

Vi har många modeller i solcell som går att använda som gånghus eller som vägg- och fasadbelysning. Några har hög lumen och kan användas som allmänbelysning, andra är mer dekorativa för att ge ett livfullt sken ihop med en plantering eller på en balkong.

We have many models in solar that can be used as path lights or as a wall and façade lighting. Some have high lumen and can be used as general lighting, others are more decorative to give a vivid shine on a plant or on a balcony.

Wir haben viele Modelle im SolarBereich, die als Wegbeleuchtung oder als Wand- und Fassadenbeleuchtung eingesetzt werden können. Einige Artikel kommen mit einer hoher Lumenzahl, die als Allgemeinbeleuchtung verwendet werden können; andere sind dekorativ oder beleuchten punktuell z.B. eine Pflanze auf dem Balkon.

SOLAR WALL LIGHT

Bland våra vägghängda solcellsbelysningar har vi flera med högre lumen som går att använda till fasadbelysning eller portbelysning. Vi har även flerpack och mindre modeller som går att använda i trappor eller som staketbelysning. Vårt spann sträcker sig från några få lumen upp till 200 lm. Materialen är aluminium, stål eller plast.

Among our wall mounted solar lighting, we have several products with higher luminous flux that can be used for facade or door lighting. We also have multi-pack and smaller models that can be used on stairs or as fence lighting. Our range goes from a few lumen up to 200 lm. Available materials are aluminium, steel or plastic.

Im Sortiment an hängenden Wand-Solarleuchten haben wir einige Produkte mit höherem Lichtstrom, die für Fassaden oder Türbeleuchtungen eingesetzt werden können. Weiterhin sind auch Sets und kleinere Modelle, die als Treppen oder Zaunbeleuchtung eingesetzt werden können, verfügbar. Unser Spektrum reicht von niedrigen bis hin zu 200 Lumen. Die Leuchten bestehen aus Aluminium, Stahl oder Kunststoff.

FLAME - MOVING FLAME FUNCTION

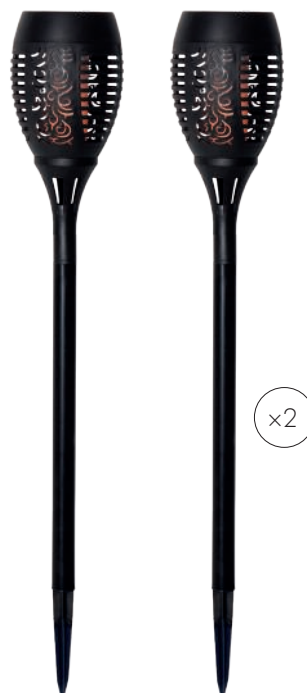

Serien FLAME har en LED-teknik som imiterar en verklig rörlig låga. De ger ett sken som liknar brinnande eld. I solcell har vi allt från gångljus, stolpbelysning, vägghängda eller med handtag i denna teknik.

Our Flame series has LED technology that mimics a real burning flame. In solar we have everything from path light and post light to wall mounted or with handle using this technology.

Unsere „Flame“-Serie verfügt über eine LED-Technologie die eine brennende Flamme imitiert. Im Solarbereich finden sich verschiedene Typen mit dieser Technologie. Von Wege/- und Standleuchte bis hin zur Wandmontage oder mit Aufhängung bzw. Haltegriff ist alles vorhanden

FIREWORK SOLAR

Vår populära serie Firework finns i många varianter. Samtliga skapar en härlig atmosfär i trädgården med sina små ljuspunkter som lyser upp som ett riktiga fyrverkeri.

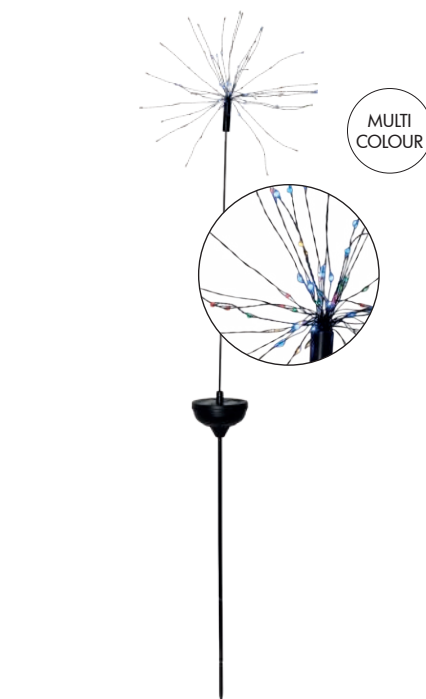

Our popular series Firework is available in many variants. All create a lovely atmosphere in the garden with their small dew drop diodes that light up as a real firework.

Unsere beliebte Serie Feuerwerk gibt es in vielen Varianten. Alle schaffen mit ihren kleinen Tautropfen-Dioden, die wie ein echtes Feuerwerk leuchten, eine stimmungsvolle Atmosphäre im Garten.

SOLAR TRANSFORMERS FOR SHOP & SHOWROOMS

Batterieliminatör för solcellsprodukter med 5 uttag för solcellsprodukter som använder 1 st AAA/AA 1.2V NimH batteri. Endast för inomhusbruk! Till exempel i butik och showroom. När produkten kopplas in ska solcellspanelen täckas över.

Battery eliminator with 5 connectors for solar powered products that normally use 1 pc AAA/AA 1.2V NimH battery. For indoor use only! For example in shop and showroom. When a product is connected, the solar panel must be covered.

Batterie-Ersatz mit 5 Anschlüssen für solarbetriebene Produkte, die normalerweise einen NIMH-Akku "AAA / AA" mit 1,2V verwenden. Nur für den Innengebrauch geeignet! Zum Beispiel im Laden und / oder in der Ausstellung. Wenn ein Produkt hiermit angeschlossen wird, muss das Solarpanel abgedeckt werden, damit der Artikel leuchtet.

EXTEND PRODUCT LIFE SPAN WITH REPLACEABLE BATTERIES

The durability of a solar energy product is mainly limited, not by the LED or the solar panel, but by the rechargeable battery which only lasts so many charge cycles. By replacing the battery you can extend the lifespan of your product. We recommend changing batteries once a year.

FLAMME

Ljuset med den realistiska lågan som ser ut som ett äkta stearinljus där skenet flammor mjukt. När dessa ljus är tända tror de flesta att det är ett äkta ljus som är tänd.

The candle with the realistic flame that looks like a real candle where the flames glow softly. When these candles are lit, most people think they are real candles.

Die LED-Kerze mit der realistischen Flamme, die wie eine echte Kerze aussieht, bei der die Flammen sanft leuchten. Eingeschaltet lassen sie sich nur schwer von einer echten Kerze unterscheiden.

M-TWINKLE

Ljusen i denna serie lyser med en rörlig låga som lysas upp med gyllene LED färg. Den rörliga lågan ger ett mjukt sken och en vacker skuggeffekt. Vår serie M-Twinkle finns i många olika storlekar och modeller. Alla har inbyggd timer.

The candles in this series have a movable flame, illuminated with a golden LED colour. The moving flame gives a soft shine and a beautiful shadow effect. Our series M-Twinkle comes in varies sizes and models. All of them have a built-in timer.

Die Kerzen dieser Serie besitzen eine, sich selbsttätig bewegliche, Flamme, die von goldfarbenen LED beleuchtet wird. Die bewegendenden Flammen erzeugen einen weichen Lichterglanz und schönen Schatteneffekt. Unsere Serie „M-Twinkle“ ist in verschiedenen Größen und Ausführungen erhältlich. Alle Artikel kommen mit einem eingebauten Timer.

M-TWINKLE OUTDOOR

I vår serie M-Twinkle har vi även utomhusljus i plast i flera storlekar i vitt eller beige. De lyser med rörlig låga med hjälp av en gyllene LED. Den rörliga lågan ger ett mjukt sken och en vacker skuggeffekt.

In our series M-Twinkle we also have outdoor lights in plastic in several sizes in white or beige. The moving flame is illuminated by a golden LED. The moving flame gives a soft shine and a beautiful shadow effect.

Unsere „M-Twinkle“ Serie beinhaltet unter anderem Außenleuchten aus Kunststoff in verschiedenen Größen in weiß und beige. Die sich bewegende Flamme wird durch eine goldene LED angestrahlt. Die Flamme erzeugt einen weichen Glanz und zugleich einen realistischen Schatteneffekt.

CHRISTMAS CANDLES

Traditionen att tända många ljus vid juletid är stor. Att använda våra stämningsfulla led Candles är både ett säkert och vackert sätt att fortsätta denna sed på.

The tradition of lighting candles at Christmas time is great. Using our LED Candles is a safe, cosy and beautiful way to continue this tradition.

Zu Weihnachten ist das Licht strahlender Kerzen Tradition. Die Verwendung unserer led-Kerzen ist eine sichere und ebenso gemütliche Möglichkeit an dieser Tradition festzuhalten.

S: Beräkning av batteritider

Eftersom utvecklingen på LED, batterier och andra komponenter som ingår i våra LED Candles har gått framåt, så har vi gjort en ny genomgång och testat produkternas batteri-livslängd. Därmed har vi kunnat öka upp brinntiden på ett flertal artiklar i vårt sortiment. Våra tester har gjorts med Alkaline Pro-power batterier. Faktisk tid beror till stor del på vilka batterier som används samt omgivningstemperatur.

GB: Estimation of battery life

Since the development of LED, batteries and other components which are part of our LED Candles all move forward, we have updated our testing of the products' battery life. This has allowed us to increase the estimated battery life of many products in our assortment. Our tests have been conducted using Alkaline Pro-power batteries. Actual time will depend greatly on which type of batteries are used and the surrounding temperature.

D: Geschätzte Lebensdauer der Batterien

Durch die stete Entwicklung der LED, Batterien und anderer Komponenten, welche Teil unserer LED Kerzen sind, haben wir unsere Tests zur Lebensdauer von Batterien aktualisiert. Wir konnten dadurch die geschätzte Nutzungszeit der Batterien für viele unserer Produkte erhöhen. Alkaline Pro-Power Batterien haben dabei am besten abgeschnitten. Die tatsächliche Leuchtdauer hängt in hohem Maße von den genutzten Batterietypen und der Umgebungstemperatur ab.
